

Mahatma Phule Samaj Seva Mandal

Annual Report for Year 2018-19

Project successfully completed in the financial year 2018-19

1) Jaldhara Se Jeevandhara project in Three Villages of Karmala Block of Solapur District of Maharashtra (CSR supported by CEE and Canara HSBC OBC life insurance)

Major activities done under the project

- Capacity Building of Water Management Committees.

Capacity building of water management committee regularly/monthly conducted in all three villages. The water management committee actively participated in water conservation related work done by other government agencies.

In village Kamone the water management committee plays a vital role to bring Kukadi water in Kamone village from Kukadi central irrigation project which is located in Pune district. This is our biggest project achievement. All water management committees actively work & they are also aware in their respective villages regarding efficient use of available water.

- Community Participation and Institutional Strengthening.

23 programs were organized in all three villages. Under this activity 579 farmers were trained and almost 2000 people indirectly benefited. This included FFS on different methods of irrigation methods and water management, goat rearing, Exposure visits, different intertillage tech., Value chain development and marketing, different sowing methods. Etc.

- Dry land horticulture plots/ Backyard garden.

Under this activity, 61 farmers have benefited from the cultivation of Backyard Garden. 800 saplings have been cultivated like Mango, Chikoo, Mosambi, peru, oranges such as various fruit trees and medicinal plants like Aloe vera. The beneficiary is responsible for managing it.

61 farmers get an understanding of the back yard garden and get added income due to it in 4-5 years.

- Promotion of Goat rearing

Stated rearing of goats for landless/ marginal land holding families. 8 Such families were identified (4 HHs from Kamone, 3 from Khadaki & 1 from Alajapur village) with 3 female goats through this project. The families would have to return one female kid to be donated back to the NGO which then will be given to 8 more families so that the chain continues.

- Provision of water filter plants

Three water filtration units were provided to each village. All units from Kamone , Alajapur and Khadaki village are running successfully. Almost 3000 people(500 families) are benefiting from these units. The Gram panchat is responsible for managing it

- Agri and food processing units.

Instead the 5 SHG groups were provided with different Agri and food processing units.

1. Samrudhi SHG, Kamone (Dall mill)
2. Ramai SHG, Kamone (Grain Groats mill)
3. V.K. SHG, Aalajapur (Dall mill)
4. Nandini SHG, Aalajapur(Noodles Mavhine)
5. Ramai SHG, Khadaki(Chilli Grinder)

- Pickle production support

SAMRDHI SHG (FSSAI no- 21518218001009) from Kamoe village has started production of pickles. In the first lot, the group has earned a profit of Rs. 7000.00 and Ten SHG women get financial support. This group has been linked to the MSLRM (Umed) program (Govt. of Maharashtra) and will help in the market for the product. Umed promised us that SHGs final products marketing will done by MSRLM.

2) Poverty reduction and promotion of food security for poor and vulnerable communities (Supported by AWO international e. v. and Afarm.)

The aim of the project is to reduce Seasonal migrants from the Solapur & Beed districts of drought prone regions of Maharashtra who have improved livelihood and food security. The project area is 4 villages in Ashti block, Beed district and Karmala Block, Solapur District, Maharashtra.

Major activities done under the project

- 1. Farmers field school- Three sessions of farmers field school were conducted with 11 CSPGs on organic farming , LEISA tech, organic pesticides etc. The expert resource person involved in FFS and posters , charts and actual practical demonstration done in FFS
- 2. Excavation of ENB and new farm pond in Khadaki village. Total 2134.11 cub.mt excavation done and it will help to 21 CSPGS members for protective irrigation
- 3. Support to landless HHs- 10 landless and women headed HHs supported with 1 goat and 2 goat kids to each his.
- 4. Value addition training - Four agriculture produce value addition training were conducted in all four project villages . The agriculture expert was invited as a resource person. Total 132 CSPGs attended training throughout all 4 project villages.

3) Where the Rain Falls (WtRF) (supported by CARE INDIA)

The project was implemented in ten villages in Jalgaon Jamod block in Buldhana district of Maharashtra .

Works done under this project

1. Village Development Committee was formed in 10 villages(ech village one)
2. Formation of Social Monitoring Committee in 10 Project Village.

9. Block level Workshop done for Climate Change adaptation (PRI, NGO & line départment) 79 participant attend this workshop
10. 36 SHG formation was completed (Defung & New)

4) Providing quality education for children from NT/DNT communities, supported by Karuna Trust. (Yashodhara hostel project)

The aim of the project is to ensure that Paradhi children live in a supportive environment so that they can attend school successfully and on a regular basis. In this project 70 students are living in these hostels and learning regularly, also they are having nutritious food. The location of the hostel is Village Dagadi Baradgoan(RASHIN), karjat block, Aehemadnagar district, Maharashtra. The Government school is also established in 2017 in a nearby hostel. The change in their nature and their health could be noticed.
